## COMPANY STATEMENT

### CORONAVIRUS (COVID-19) – MANILVA CONTRACTS LTD

Manilva Contracts Ltd are fully aware of concerns surrounding the recent outbreak of Coronavirus (Covid-19) and the impact this could have on our clients and projects. This statement outlines our commitment to do all we can to minimise the risk while still providing the best possible services and attempt a “business as usual” approach.

Manilva are taking all steps possible and want to reassure our clients that we take this virus very seriously. Although our sites are currently fully manned with no known cases of illness, we have advised staff and labour to self isolate if they start to feel unwell. We have provided extra soap and hand sanitisers to all sites and our Foreman have given toolbox talks specifically dedicated to the education and importance of following the Government’s guidelines to ensure not only their own safety but the well being of others. We are continuing to monitor staff and labour holidays

Our supply chains have not reported any disruption to us or anticipate any shortages that we should be concerned about. We will be monitoring this and should this situation change we will advise our clients. A contingency plan is in place should the virus escalate – we will increase labour to all sites so that if anyone should have to self isolate, we can carry out their work to minimise disruption. We are cross training labour so that should the need arise they can cover an absence.

Staff who are office based have the capacity to work from home if the need arises as communication from the office is essential to the every day running of the business as well as the labour provided on site.

Wishing you all the best

Stay well and safe

Signed   
Steve Falzon  
Managing Director
